"EH" Series Hydraulic

EH Series 7'x 8' 30,000 CIR with CleanSweep Frame shown.

EH Series Standard Features Include...

- Simple Push Button Control
- Four Sided Box Construction
- Inverted Piston Style Hoist Cylinder
- Full Hydraulic Lip Activation
- Non-Adjustable Velocity Safety Stop
- Lockout/Tagout Maintenance Strut
- Night Locks/Cross Traffic Support
- 1.5 HP Single Phase Motor
- Translucent Reservoir
- Low Maintenance Design
- Full Range Toe Guards
- B410-14 Laminated Dock Bumpers

Pit Style Levelers Hydraulic

Value,
Power and
Performance
In One
Design!

Structurally Superior By Design!

Poweramp combines superior structural characteristics with an economically efficient hydraulic system to produce the EH Series Hydraulic Dock Leveler. Beyond obvious structural advantages are a host of standard features found only on competitive 'high-end' models.

Simple push button control provides safe and efficient operator control via Nema 4, non-metallic, push-button station.

An inverted barrel "piston style" hydraulic cylinder keeps hoses neatly protected under the leveler deck.

Platform free-fall protection is accomplished with an externally mounted, non-adjustable velocity fuse designed to protect your personnel from uncontrolled free-fall of the ramp.

The lip is extended or retracted using a fixed but fully yieldable lip cylinder. The nickel-plated finish extends the useful life of the lip cylinder on refrigerated applications and where extreme climate conditions exist.

The CleanSweep Frame is an available option which helps make periodic housekeeping of the pit area a breeze.

The EH Leveler is powered by a heavy-duty 1.5 horsepower (TEFC) motor. The manifold incorporates a cartridge valve assembly that simplifies field adjustments and improves reliability. A translucent tank facilitates "at a glance" fluid level inspections.

EH Series 7'x 8' 50,000 CIR with CleanSweep Frame shown.

EH Series Common Options...

- 3-Phase Power
- CleanSweep Frame
- Advanced Operator Control
- Integrated Control Systems
- Extended Lip Sizes (18" and 20")
- Automatic Return To Dock
- 3-Wheel Forktruck Protection (20k to 30k CIR)
- Weatherseal (Brush or Rubber)
- Dock Alert Light Communication Package
- Integrated Vehicle Restraint
- Dock Light

The EH Series Hydraulic Leveler is available in a wide range of sizes and capacities and can be modified for special applications.
